DETAILED ACTION

Allowable Subject Matter

Claims 13,16,17 are allowed.

Drawings

The drawings were received on 3/28/06. These drawings are approved.

Claim Rejections - 35 USC § 102

Claims 1-4,7,11,12,14,23,24 are rejected under 35 U.S.C. 102(b) as being anticipated by Peterson. See the previous office action for this rejection.

Claim Rejections - 35 USC § 103

Claims 5,6,8-10,15,18-22,25-30 are rejected under 35 U.S.C. 103(a) as being unpatentable over Peterson. See the previous office action for this rejection.

Response to Arguments

Applicant's arguments filed 3/10/06 have been fully considered but they are not persuasive. It is first noted that the dependent claims were not separately argued so that their patentability stands or falls with the parent claims. The arguments drawn towards the independent claims are not persuasive due to the breadth of the claimed subject matter. Peterson shows blades 34, shaft 36, conduits 28,52,55, and couplings allowing the shaft to rotate. Looking at claim 1, for example, shaft 36 is in a portion of conduit 28 and the blades being proximate to a containment device is broad enough to read on the blades as shown in the patent i.e. how far is 'proximate'?

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
